

ACKNOWLEDGEMENT

Any achievement does not depend solely on the individual efforts but on the guidance, encouragement and co-operation of intellectuals, elders and friends. A number of personalities, in their own capacities have helped us in carrying out this mini project work. We would like to take this opportunity to thank them all.

We would like to express my profound thanks to **Sri. G Dayanand**, Chairman, Sapthagiri College of Engineering Bangalore, for his continuous support in providing amenities to carry out this Mini Project.

Special Thanks to **Manoj G D**, Executive Director, Sapthagiri College of Engineering Bangalore, for his valuable suggestion.

Also, we would like to express our immense gratitude to **Dr. K L Shivabasappa**, Principal, Sapthagiri College of Engineering Bangalore, for his help and inspiration during the tenure of the course.

We also extend our sincere thanks to **Dr. Yogish H K**, Professor and Head, Department of Computer Science and Engineering, Sapthagiri College of Engineering, for his constant support.

We would like to express our heartfelt gratitude to **Prof. Kavya N L**, Assistant professor and **Prof. Nanda M B**, Assistant professor, Department of Computer Science and Engineering, Sapthagiri College of Engineering, for their timely advice on the mini project and regular assistance throughout the work.

We also extend our sincere thanks to all the **Faculty members** and **supporting staff** Department of Computer Science and Engineering, Sapthagiri College of Engineering, for their constant support and encouragement.

Finally, we thank our parents and friends for their moral support.

ABHINETRA KUMAR

ADITYA DEEP

ABSTRACT

Football is the world's most popular ball game in numbers of participants and spectators. Football Management System is a web page for all football fans to gather few details about their favourite player from the player's database along with current football world news and one can also book ticket for upcoming matches online. The user can also login as a Manager to do the transfer of a player from one club to another based on permission provided through authorization and also operations like adding, removing or editing a player's details is possible. The application files can reside on local systems, an intranet or the internet.
